It doesn't matter how long you've lived in Colorado, the weather still finds a way to surprise all of us. We've seen our temps go from 70° and sunny, to -3° and a blizzard in the same week, sometimes even the same day! Seasons like this are good time to make sure your HVAC systems are working properly, you know how to operate them, and maybe even make some minor repairs yourself.

We are taking things back to the fundamentals throughout the year. February kicks off the 1st topic of many in our Back to Basics Series.

Join us at our next luncheon to learn more, or give yourself a refresher, on the basics of HVAC with Tolin Mechanical.

Upcoming Luncheon

Back to Basics Series
1st Topic: HVAC

Presented by: Tolin Mechanical

Speakers Include:

- Dave Joslyn, Vice President of Sales & Engineering
- John D. Robeda, Branch General Manager
- Ryan Wolfe, Maintenance Sales Representative
At the request of some of our members, we are excited to introduce our Back to Basics Series! Throughout the year, select luncheons will have topics that cover the basics of facilities systems and building management.

In response to the requests, our topic this month comes from Dave Joslyn of Tolin Mechanical on the basics of HVAC, what you should know as a Facility Professional managing this function, basic components of a system and how they work at a high level, trends in energy efficiency and design, as well as recommended preventative maintenance for typical systems.

If you feel you are already well versed in HVAC, consider bringing members of your team that will benefit from learning more about this aspect of Facility Management.

Dave Joslyn joined Tolin as an Energy Engineer in 2007, transitioned to Project Sales Engineer in 2010 and became Vice President of Sales & Engineering in February 2014. From 2003 to 2007 Mr. Joslyn held positions as a project engineer for American Energy Assets and a Senior Performance Assurance Specialist at SIEMENS Building Technologies – where he worked on energy performance contract and energy services projects. Mr. Joslyn received a Bachelor of Science in Mechanical Engineering from Colorado State University.

When: February 19th, 2020
11:30 AM-1:00PM
NEW LOCATION FOR THE MONTH OF FEBRUARY!
Where: Pear Commercial Interiors
3650 N Nevada Ave
Colorado Springs, CO 80907

NEW!

Master Klean Janitorial, Inc. is a commercial janitorial service that has been satisfying our customers since 1974. We know your cleaning needs and can meet them along Colorado’s Front Range. We enjoy our reputation as “The Distinctive Service People.” We apply that to everything that we do and customer service is our highest priority.

Excellent service does NOT always cost more. In fact, several of our customers believe that our service translates to an investment in their business, not an expense.

WHY? Because clean and sanitary buildings are proven to:

1. Increase employee productivity (reduced absenteeism and healthcare costs, increased employee satisfaction)
2. Reduce operating expenses (reduced risk and hazards, lower insurance costs)
3. Preserve assets (extended life through proper maintenance)
4. Increase building value (clean buildings sell for more $)(Sources: American Institute for Cleaning Sciences & EPA)

Reach out to Mura Golden with any questions or to schedule a service. Mura has years of experience in creating healthy environments and understands the needs of the Colorado Springs market.

Master Klean can help you to make a difference! Call us to find out how at(719) 268-6743.

Pikes Peak Chapter Vision: To be the Association of Choice for Facility Professionals

Pikes Peak Chapter Mission: To continually advance the professional growth of our members, develop the profession, support local charities, and recognize member achievement.

IFMA National News

IFMA and ASHRAE Team Up to Support Safe, Energy-Efficient Facilities

IFMA and ASHRAE signed an agreement in early August 2019, recognizing both organizations’ shared interests in the professionalism of the building industry and the design and management of safe, energy-efficient facilities.

As an important next step, IFMA chapters are encouraged to engage with ASHRAE chapters operating in common geographic areas. The goal of these collaborative endeavors is to help bring the facility management and HVAC design segments of the built environment together.

New Feature!
The Career Corner

As a member of IFMA, one of the many great benefits you have is networking with countless industry professionals. We are taking it a step further and helping you, or your company, grow.
If you have a job opening that you’d like to advertise to your fellow members, we will add your listing in our new Career Corner on the monthly newsletter.

In addition, if you are looking for a career change, we can add your resume to the Career Corner to let other members know that you are a qualified candidate open to new opportunities.

Available Candidates

Tom Burns

If you would like your job posting or your resume added to the Career Corner, please email Ashley Byron: byrona@gejohnson.com

As the FM leadership event of the year, IFMA’s Facility Fusion Conference and Expo is an opportunity for facility professionals at every career level to focus on personal leadership skills and career development. Geared toward the unique needs and challenges in managing specific types of facilities, projects and teams, it fuses global, local, industry-specific and individual FM focus areas into one highly charged learning and networking event.

In the expanding field of facility management, it’s imperative for FM professionals to have the tools necessary to excel. Facility Fusion is hosted by IFMA, the most widely recognized and well-connected international association for FM professionals. IFMA gets what you do, and Facility Fusion gives you the tools to do it.

When & where?
April 14-16, 2020
Hilton San Francisco Union Square
333 O’Farrell Street
San Francisco, California, USA
